22.105(455B) Title V permit applications.

- 22.105(1) Duty to apply. For each source required to obtain a Title V permit, the owner or operator or designated representative, where applicable, shall present or mail to the Air Quality Bureau, Iowa Department of Natural Resources, 7900 Hickman Road, Suite 1, Urbandale, Iowa 50322, at least four copies of a complete and timely permit application in accordance with this rule.
- a. Timely application. Each source applying for a Title V permit shall submit an application:
- (1) By November 15, 1994, if source was existing on or before April 20, 1994, for the first time submittals of Title V permit applications. However, a source may choose to defer submittal of Part 2 of the permit application until December 31, 1995. The department will mail notice of the deadline for Part 2 of the permit application to all applicants who have filed Part 1 of the application by October 17, 1995.
- (2) At least 6 months but not more than 18 months prior to the date of permit expiration if the application is for a permit renewal.
- (3) By January 1, 1996, (for sulfur dioxide) or by January 1, 1998, (for nitrogen oxides) if the application is for an initial Phase II acid rain permit.
- (4) For a change that is subject to the requirements for a significant permit modification (see rule 22.113(455B)), the permittee shall submit to the department an application for a significant permit modification not later than three months after commencing operation of the changed source unless the existing Title V permit would prohibit such construction or change in operation, in which event the operation of the changed source may not commence until the department revises the permit.
- (5) Within 12 months of commencing operation for a source subject to 112(g) of the Act or subject to rule 22.4(455B) (prevention of significant deterioration permitting) or subject to rule 22.5(455B) (nonattainment area permitting). Where an existing Title V permit would prohibit such construction or change in operation, the source must obtain a Title V permit revision before commencing operation.
- (6) Within 12 months of becoming subject to this rule for a new source or a source which has become subject to the Title V permit requirement after April 20, 1994.

- b. Complete application. To be deemed complete, an application must provide all information required pursuant to subrule 22.105(2), except that applications for permit revision need supply such information only if it is related to the proposed change.
- 22.105(2) Standard application form and required information. To apply for a Title V permit, applicants shall complete the standard permit application form available only from the department of natural resources, and supply all information required by the filing instructions found on that form. information submitted must be sufficient to evaluate the source and its application and to determine all applicable requirements and to evaluate the fee amount required by rule 22.106(455B). a source is not a major source and is applying for a Title V operating permit solely because of a requirement imposed by paragraph 22.101(1) "c," then the information provided in the operating permit application may cover only the emissions units that trigger Title V applicability. The applicant shall submit the information called for by the application form for each emissions unit to be permitted, except for activities which are insignificant according to the provisions of rule 22.103(455B). The applicant shall provide a list of all insignificant activities and specify the basis for the determination of insignificance for each activity. Nationally standardized forms shall be used for the acid rain portions of permit applications and compliance plans, as required by regulations promulgated under Title IV of the Act. The standard application form and any attachments shall require that the following information be provided:
- a. Identifying information, including company name and address (or plant or source name if different from the company name), owner's name and agent, and telephone number and names of plant site manager/contact.
- b. A description of the source's processes and products (by two-digit Standard Industrial Classification Code) including any associated with each alternate scenario identified by the applicant.
- c. The following emissions-related information shall be submitted to the department on the emissions inventory portion of the application:

- (1) All emissions of pollutants for which the source is major, and all emissions of regulated air pollutants. The permit application shall describe all emissions of regulated air pollutants emitted from any emissions unit except where such units are exempted. The source shall submit additional information related to the emissions of air pollutants sufficient to verify which requirements are applicable to the source, and other information necessary to collect any permit fees owed under the approved fee schedule.
- (2) Identification and description of all points of emissions in sufficient detail to establish the basis for fees and the applicability of any and all requirements.
- (3) Emissions rates in tons per year and in such terms as are necessary to establish compliance consistent with the applicable standard reference test method, if any.
- (4) The following information to the extent it is needed to determine or regulate emissions: fuels, fuel use, raw materials, production rates, and operating schedules.
- (5) Identification and description of air pollution control equipment.
- (6) Identification and description of compliance monitoring devices or activities.
- (7) Limitations on source operations affecting emissions or any work practice standards, where applicable, for all regulated pollutants.
- (8) Other information required by any applicable requirement (including information related to stack height limitations developed pursuant to section 123 of the Act).
- (9) Calculations on which the information in subparagraphs (1) to (8) above is based.
- (10) Fugitive emissions from a source shall be included in the permit application in the same manner as stack emissions, regardless of whether the source category in question is included in the list of sources contained in the definition of major source.
 - d. The following air pollution control requirements:

567-22.105

- (1) Citation and description of all applicable requirements, and
- (2) Description of or reference to any applicable test method for determining compliance with each applicable requirement.
- e. Other specific information that may be necessary to implement and enforce other applicable requirements of the Act or of these rules or to determine the applicability of such requirements.
- f. An explanation of any proposed exemptions from otherwise applicable requirements.
- g. Additional information as determined to be necessary by the director to define alternative operating scenarios identified by the source pursuant to subrule 22.108(12) or to define permit terms and conditions relating to operational flexibility and emissions trading pursuant to subrule 22.108(11) and rule 22.112(455B).
 - h. A compliance plan that contains the following:
- (1) A description of the compliance status of the source with respect to all applicable requirements.
- (2) The following statements regarding compliance status: For applicable requirements with which the stationary source is in compliance, a statement that the stationary source will continue to comply with such requirements. For applicable requirements that will become effective during the permit term, a statement that the stationary source will meet such requirements on a timely basis. For requirements for which the stationary source is not in compliance at the time of permit issuance, a narrative description of how the stationary source will achieve compliance with such requirements.
 - (3) A compliance schedule that contains the following:
- 1. For applicable requirements with which the stationary source is in compliance, a statement that the stationary source will continue to comply with such requirements. For applicable requirements that will become effective during the permit term, a statement that the stationary source will meet such requirements on a timely basis. A statement that the stationary

source will meet in a timely manner applicable requirements that become effective during the permit term shall satisfy this provision, unless a more detailed schedule is expressly required by the applicable requirement.

- 2. A compliance schedule for sources that are not in compliance with all applicable requirements at the time of permit issuance. Such a schedule shall include a schedule of remedial measures, including an enforceable sequence of actions with milestones, leading to compliance with any applicable requirements for which the stationary source will be in noncompliance at the time of permit issuance.
- 3. This compliance schedule shall resemble and be at least as stringent as any compliance schedule contained in any judicial consent decree or administrative order to which the source is subject. Any compliance schedule shall be supplemental to, and shall not sanction noncompliance with, the applicable requirements on which it is based.
- (4) A schedule for submission of certified progress reports no less frequently than every six months for sources required to have a compliance schedule in the permit.
- i. Requirements for compliance certification, including the following:
- (1) A certification of compliance for the prior year with all applicable requirements certified by a responsible official consistent with subrule 22.107(4) and section 114(a)(3) of the Act.
- (2) A statement of methods used for determining compliance, including a description of monitoring, record keeping, and reporting requirements and test methods.
- (3) A schedule for submission of compliance certifications for each compliance period (one year unless required for a shorter time period by an applicable requirement) during the permit term, which shall be submitted annually, or more frequently if required by an underlying applicable requirement or by the director.
- (4) A statement indicating the source's compliance status with any applicable enhanced monitoring and compliance certification requirements of the Act.

567-22.105

- (5) Notwithstanding any other provisions of these rules, for the purposes of submission of compliance certifications, an owner or operator is not prohibited from using monitoring as required by subrules 22.108(3), 22.108(4) or 22.108(5) and incorporated into a Title V operating permit in addition to any specified compliance methods.
- j. The compliance plan content requirements specified in these rules shall apply and be included in the acid rain portion of a compliance plan for a Title IV affected source, except as specifically superseded by regulations promulgated under Title IV of the Act, with regard to the schedule and method(s) the source shall use to achieve compliance with the acid rain emissions limitations.
- 22.105(3) Hazardous air pollutant early reduction application. Anyone requesting a compliance extension from a standard issued under section 112(d) of the Act must submit with its Title V permit application information that complies with the requirements established in 567-paragraph 23.1(4)"d."
- 22.105(4) Acid rain application content. The acid rain application content shall be as prescribed in the acid rain rules found at rules 22.128(455B) and 22.129(455B).

EPA Rulemakings

CFR: 40 C.F.R. 70, Appendix A, Iowa (a)

FRM: 60 FR 45671 (9/1/95) PRM: 60 FR 20465 (4/26/95) State Submission: 8/17/94

State Proposal: N/A

State Final: IAC 3/16/94 (Effective 4/20/94)

APDB File: IA-36

The EPA promulgated interim approval of the Title V operating permits program and approved the state's program for receiving delegation of Description:

section 112 standards. Interim approval expires October 1, 1997.

CFR: 40 C.F.R. 70, Appendix A, Iowa (a)

State Final: IAB 6/7/95 (ARC 5660A) (Effective 7/12/95)

APDB File: IA-36

Description: This revision amended subparagraph 22.105(1)a(5) by adding a requirement

for a Title V permit revision and amended subrule 22.105(3) by changing the

date October 27, 1993, to March 8, 1995.

40 C.F.R. 52.820(c)(61)(i)(A) CFR:

60 FR 55198 (10/30/95) FRM: 60 FR 32639 (6/23/95) PRM:

State Submission: 10/18/94

State Proposal: IAB 6/22/94 (ARC 4885A)

State Final: IAB 10/12/94 (ARC 5168A) (Effective 11/16/94)

APDB File: TA-48

Description:

This revision amended 22.105(2)i by adding a new subparagraph (5). This revision incorporated subparagraph 22.105(2)i(5) into the SIP to meet the requirement that enhanced monitoring provisions be included in the SIP.

Only subparagraph (5) of this rule is included in the SIP

PRM: 68 FR 54195 (09/16/2003)

State Submission: 03/11/2002

State Final: IAB 01/09/2002

State Effective: 02/13/2002

APDB File: IA-96

Description: This revision changes the deadline for application submittal to no later

than 3 months after commencing operation of the changed source, if the

change is not prohibited by the current permit.

Difference Between the State and EPA-Approved Regulation

None.
